The Impact Foundation gave us the opportunity to develop and enhance our fundraising techniques. We learned how to become more efficient in our practice and are already benefiting from these learned skills. We are even looking at possibly expanding on and developing programs. Part of our mission is to be involved in the community. With the programs and special events that we put on we are more able to engage and interact with the community by giving us venues that are outside of everyday activities.

- Sharon Staton, Executive Director
